

## PRODUCT INFORMATION BULLETIN

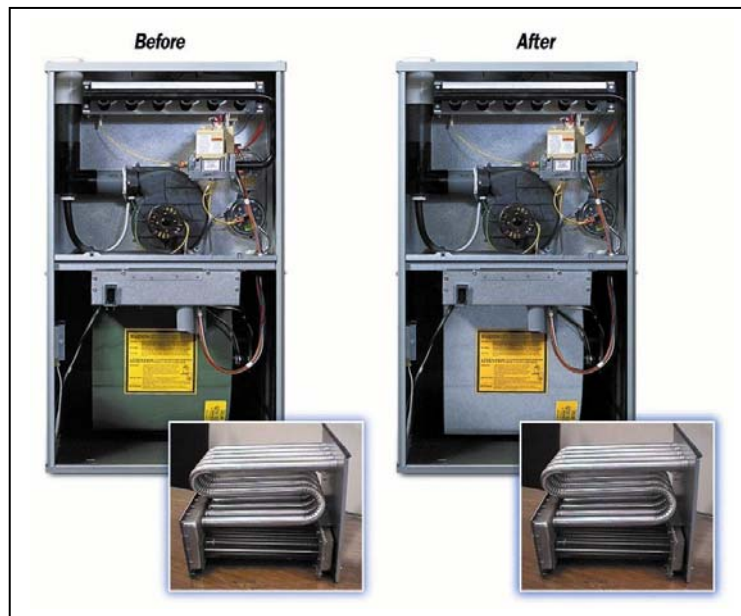

**DATE:** February 11, 2004

**TO:** All Airco, Olsen & Oneida Royal Distributors, Regional Sales Managers & Local Sales Representatives

**FROM:** ECR International Sales & Marketing

**SUBJECT:** Delhi Industries Blower Change

Our blower supplier (Delhi Industries) has changed their standard blower finish from green paint on cold rolled steel to G90 galvanized. (See figure below).

All ECR furnace models (Airco, Olsen & Oneida Royal) will be affected by this change. This G90 galvanized finish provides superior corrosion resistance over cold rolled painted steel and protects the environment from solvents used in the paint process.

The new blower is interchangeable with the previous one. Specifications and dimensions have not changed. The only change is to the blower finish.

Production will start to receive shipments of the new blower on February 11, 2004. Customers may receive a shipment with mixed colors during the transition period.

If you have any additional questions, please contact ECR International Customer Service at 1-800-325-5479.
