ENERGY STAR® Oil Furnace Listing

Olsen is pleased to announce several Oil Furnaces have qualified and are listed with the ENERGY STAR Program.

In the United States, ENERGY STAR is a joint program of the U.S. Environmental Protection Agency and the U.S. Department of Energy helping to save money and protect the environment through energy efficient products and practices.

In Canada, ENERGY STAR is a voluntary arrangement between Natural Resources Canada's Office of Energy Efficiency and organizations that build, manufacture, sell or promote products or new homes that meet the ENERGY STAR levels of energy performance. ENERGY STAR in Canada is administered by Natural Resources Canada's (NRCan's) Office of Energy Efficiency (OEE).

Current ENERGY STAR efficiency levels for Oil Furnaces have Annual Fuel Utilization Efficiency (AFUE) ratings greater than or equal to 83.0%.

Products listed with ENERGY STAR may qualify for local rebates.

The following Olsen Oil Furnaces are listed with ENERGY STAR:

Low Boy Oil Furnaces

BCL90S
BCL100S
BCL120S
